## Will Prosecute Congressional Election Frauds

WASHINGTON, Oct. 23.—Federal district attorneys were directed today by Atty. Gen. Gregory to give full publicity to the recent act of congress intended to prevent corrupt practices in senatorial and congressional elections, and to prepare to prosecute vigorously any persons charged with violations. The act provides a fine of \$1,000 or one year's imprisonment or both for conviction of using money or other material things of value to influence votes in congressional elections.

The department of justice through federal attorneys in several states is investigating reports that candidates for nominations as senator or representative in recent primaries violated the law limiting expenditures by a candidate to \$5,000. So far it is said, little evidence has been found warranting prosecution.

## USED RESINOL FOR BAD SKIN TROUBLE

Considers Recovery Remarkable.

Brooklyn, N. Y., Aug. 14.—"For almost six years I suffered from a severe case of skin trouble which began with swelling and intense pain in my knee. Then my leg became inflamed and broke sore out, which itched and burned terribly day and night. I tried many remedies, but gained no relief. I even spent six months in the hospital, and the doctors wanted to amputate my leg. At last I tried Resinol Ointment and Resinol Soap and obtained relief from the first application. My knee is now well, and I consider the cure remarkable, as my trouble was very serious."
